On display from 6pm

(Gold Coin Donation to Charity Appreciated)

Alex and Peter's first circumnavigation in 2005 was via Cape Horn and England during which they were in contact with the International Space Station.

The second circumnavigation took Berrimilla through the North West Passage - without Pete this time - and across to England where Berrimilla became the first boat to have sailed from Australia to England via the North West Passage.

Pete rejoined and they sailed back via the Cape of Good Hope and the Kerguelen Islands.

Come along and watch a Slideshow and listen to Alex & Peter tell their enthralling stories of Sailing Around the World in Berrimilla.
